Symposium on Portraying the Latest Landscape of Building Industry

A series of symposium will be organized by the Hong Kong Trade Development Council during the Hong Kong International Building and Decoration Materials & Hardware Fair to be opened on October 27, 2012 at the AsiaWorld Expo.

The symposium, titled Portraying the Latest Landscape of Building Industry has invited three well-known figures from the industry to present their insight on the local architectural, planning and building scene. The speakers and their topics are:

Greening and Sustainable Development – the Planning of Hong Kong, a Compact City

By Mr P Y Tam, Immediate Past President, Hong Kong Institute of Planners

Design for Value

By Mr K W Cheung, Director, Dennis Lau & Ng Chun Man Architects & Engineers (HK) Limited

First Zero Carbon Building in Hong Kong

By Dr Guiyi Li, Director-Zero Carbon Building, Construction Industry Council

Admission is free. Limited seats are available on a first-come-first-served basis.
