# Wynn Macau

Hotel lobby

**W**ynn Macau occupies a premiere position on Avenida Da Amizade (Friendship Avenue) directly across the street from Hotel Lisboa, approximately 3.3 km from the Macau Ferry Terminal. The property is located adjacent to the Taipa Bridge, the gateway to Taipa Island, home of the Macau International Airport. This premiere location will not only give Wynn Macau's guests some of the most beautiful views in all of Macau, but with its close proximity to the Hotel Lisboa, Macau Ferry Terminal and many of the historic sites located around the city centre.

### Resort rooms

All of the rooms at Wynn Macau offer deluxe appointments, including pillowtop Wynn signature beds, European linens, individual bedside lighting and drapery controls, in-room entertainment featuring flat screen television and high-speed Internet access.

Wynn Macau has a total of 600 rooms and suites. Guests checking into the hotel will arrive at one of two distinct entrances; the Main Entrance or the Wynn Club Entrance. Within them, there are 360 deluxe rooms and 100 grand deluxe rooms with an average 56 sq m of luxury living space. Both kinds of room have Wynn signature pillowtop bed with fine Italian linens, serene soaking tub, etc.

The resort also has 120 one-bedroom suites and 20 two-bedroom suites. One-bedroom suites have an average 185 sq m of lavishly appointed bedroom and entertainment space, with stunning views of the Nam Van Lake and the glittering Macau skyline. Wynn signature pillowtop king-size bed with fine Italian linens, complete private bar and seating areas are also provided.

Sky Suite Bath

While two-bedroom suites have the choices of lake suites and sky suites. With an average 278 sq m of exquisite living space with floor-to-ceiling windows, lake suites have impeccably furnished living and entertaining areas with separate media and

dining room. Each bedroom has a combination of 'his and hers' bath with dressing area, glass-enclosed shower, bathtub with an ultra-deep bathing well and a private toilet. In-room spa therapy suite is also available.

#### **Convention and meeting areas**

Meeting and conference areas offer state-of-the-art facilities to ensure that the convention spaces at Wynn Macau exceed guest expectations. The convention area is

conveniently located on the first floor, accessible by escalator or dedicated elevators. It features 2,200 sq m of flexible, multi-purpose meeting space.

The grand ballroom is equipped with a technically supported, theatrical-standard stage. All meeting rooms may be divided to accommodate several groups simultaneously. All areas feature advanced technology, including sophisticated audiovisual equipment and both broadband and wireless Internet capabilities.

#### **Performance lake**

Wynn Macau is equipped with a performance lake, which houses over 200 water nozzles and shooters and holds 3,028,329.44 liters (800,000 gallons) of water. From lyrical

sweeps to the robust precision of vertical jets, water elements arise from the basin to capture both the subtlety and grandeur of the music they accompany. The 1,000 individually controlled colored lights allow for a choreographic masterpiece capable of expressing a complexity of moods, rhythms and emotions. Seven imposing fire experiences burst forth to punctuate the choreography during passionate phrases, adding a primal heat, light, and immediacy to the experience.

WET Design develops contextually motivated water fountains. Design and invention join to express the unique character of each project. Diverse physical and cultural environments guide the design of a WET fountain.

## AEI helps to light up Macau

**C**abling leader AEI Cables has provided the full range of products for the first stage of the prestigious Wynn Resort in Macau — and is now gearing up for the next phase.

The company has supplied cables for fire performance, power, lighting, alarm systems and emergency detection equipment from its range for the newly-opened development in Macau. It is following up by providing cabling for the second stage development of the luxury hotel-casino site which provides a spectacular skyline feature.

Tipped to become the world's largest casino market, Macau was lit up as hotel owner Steve Wynn opened the resort in colourful style with a huge firework display.

David Fraser, Export Director for AEI Cables, said: "These are major developments and great projects to demonstrate our worldwide

capability. We are providing the full range of cabling for all needs and it is a testimony to our export team."

Distribution of the product has been through Gelec, who have been distributing the full range of AEI Cables products in Hong Kong for last eight years on many prestigious contracts and who recently opened a branch in Macau.

The copper red, mirrored Wynn Macau building is the first casino to bring the best of Las Vegas-style luxury to this Chinese region. The casino has 9,300 square metres of gaming area, including a 1,000 square metre VIP casino. The complex will also contain 600 five-star hotel rooms and suites, six gourmet restaurants, health club, pool, spa, shopping arcade and endless entertainment options.

Phase 2 will include an additional 12,500 square metres of casino space with 150 gaming tables and 500 slot machines, two restaurants, retail space, a theatre, and a dramatic front feature attraction. Phase 2 is estimated to be open later next year.
